

C-STYLE

Our youngest straightener is called C-Style and is our entry level to hair styling, but with unbeatable qualities: titanium plates and integrated temperature control in three stages help you to get a job tailored to your needs.

Why is it different?

Because it's practical and handy and provides effortless gliding without tugging... quick and easy smoothing! It also has a temperature control from 60 to 210, an On/Off LED indicator and a swivel cord.

What can I use it for?

It's a very handy straightener, perfect for straightening and curling, and has a 360° cord for freedom of movement. Being small in size, it is also practical for transporting it when you leave the house.

Characteristics

| | |
|----------------------------------|--------------------|
